MISSION STATEMENT

Assisting the growth of small, minority and women-owned business enterprises (S/M/WBEs) in construction and related industries is the primary objective of the Regional Alliance for Small Contractors. As a premier construction industry partnership headquartered in New York and led by major construction firms and public agencies, the Regional Alliance was created in 1990 to:

- Promote the representation of minorities and women in the ownership, management and work force of construction and related businesses.

- Promote and support the development of small, minority and women-owned construction and related businesses.

- Promote policies and practices that improve the competitive position of small, minority and women-owned businesses.

- Promote, develop and implement building capacity programs for S/M/WBEs to expand their contracting abilities.

- Provide marketing and networking opportunities for S/M/WBEs with private and public sector firms.
The primary mission of the Regional Alliance for Small Contractors (RASC) is to assist the growth of minority, women, disadvantaged, and local business enterprises in construction and associated industries. RASC accomplishes this objective by promoting policies and practices that improve the competitive position of M/W/D/LBEs, and expanding the capacity of these firms to undertake contracts of increasing size and complexity.

Fresh initiatives by New York State Governor Andrew M. Cuomo and NYC Mayor Michael R. Bloomberg are supportive of M/WBEs seeking a larger share of public procurement. NYS Executive Order No. 8 and NYC Local Law No. 1 mandate free access to contract information, specificity in contracts regarding M/WBE participation, assistance and supportive services programs, access to credit and bonding assistance, and frequent, consistent, stronger monitoring and compliance during contract periods. RASC’s contract compliance experience with Delta Air Lines, JetBlue and other clients, proves that the success of these local and state programs will lie in the details. Special consideration must be given to outreach efforts, appropriate contract sizing, and contract dispute resolution.

Mentor-Protégé Programs sponsored by the Port Authority of NY & NJ, the NYC School Construction Authority, and the Metropolitan Transit Authority provide excellent examples of how to achieve higher M/W/D/LBE contract participation in public and private sector procurement. These programs combine tutelage with real time contract opportunities, honing business skills and contract performance alike. RASC is working deliberately to promote more Mentor-Protégé programs that provide contract opportunities to M/WBE firms in the region.

RASC’s award winning Managing Growth® Program continues to impart cutting edge business skills so M/W/D/LBEs can take advantage of contract opportunities as they arise. With the proliferation of multi-billion dollar projects in the region, like the Hudson Yards Development Project, the Cornell University Science Center on Roosevelt Island, the Riverside Center Project, terminal construction and expansions at JFK International and LaGuardia Airports, and the massive Manhattanville Project undertaken by Columbia University, we fully expect these projects will become fertile ground for M/W/D/LBE firms to grow their businesses.

Under the chairmanship of Jay Badame, President and COO of Tishman Construction Corp for NY, NJ, PA, an AECOM Company, RASC will continue to be a strong and positive force for the development of M/W/D/LBEs.

Yours truly,

Earle J. Walker
Since its inception more than three decades ago, Hugh L. Carey Battery Park City has grown into one of the most successful urban renewal projects in the nation. The success of Battery Park City is largely due to its ability to adapt its master plan to the changing environment around it. Increasing public open space and adopting environmental guidelines for all construction taking place after the year 2000 are initiatives that have had a positive impact on the project.

Over the years, The Hugh L. Carey Battery Park City Authority (BPCA) has awarded more than a half billion dollars of contracts to the minority and women-owned business community. BPCA initiatives to:

- Provided contract opportunities with both the Authority and its developers.
- BPCA has awarded over $50 Million in contracts to M/WBE’s in infrastructure updates, office supplies, reprographics, temporary personnel, auditing, etc. Our developers have awarded over $600 Million in contract to M/WBE’s in the past 10 years alone.
- BPCA participates in various outreach conferences and trade shows as well as supporting various business support groups, like the Regional Alliance for Small Contractors, the Jamaica Business Resource Center, The Association of Minority Enterprises of New York, New York State Association of Minority Contractors and Professional Women in Construction; just to name a few.
- BPCA works closely with other city and state agencies, Port Authority of NY & NJ, the Metropolitan Transportation Authority, the Dormitory Authority of New York, etc., in sponsoring procurement opportunity workshops and seminars, and is a major sponsor of the Competitive Edge Conference.

Anthony Peterson, Project Associate of Diversity
Hugh L. Carey Battery Park City Authority

Corporate Overview
Founded in 1838, Tishman Construction, an AECOM company, is one of the world’s leading builders, responsible for the construction and renovation of more than 450 million square feet of space. Tishman and AECOM bring together 45,000 designers, engineers, construction managers and other experts around the world. This powerful combination of innovative and award-winning expertise advances the ideas, projects and strategies of clients in more than 140 countries.

Tishman’s roster of projects includes some of New York City’s most high-profile buildings: World Trade Center Towers 1, 3, 4 and 7; the World Trade Center Transportation Hub; the Bank of America Tower at One Bryant Park; 250 West Street; W Downtown NY Hotel & Residences; Condé Nast Headquarters at 4 Times Square; Reuters America’s Headquarters at 3 Times Square; The Intercontinental New York Times Square; and The Westin New York at Times Square.

Tishman is not only dedicated to improving the region’s built environment, but also to advancing the presence of M/W/S/DBE and veteran contractors, vendors and suppliers in the metropolitan construction industry. The firm has been a pioneer in initiating programs that facilitate industry participation, and its employees have worked tirelessly to foster solidarity within the construction community, while simultaneously increasing minority and women presence in the workforce.

Diversity Efforts
It is Tishman’s standard operating practice to promote M/W/S/DBE and veteran contractors in both its public and private sector projects. Through a variety of aggressive Affirmative Action programs designed to encourage minority and women involvement, Tishman has successfully fostered joint ventures with numerous M/W/S/DBEs and veteran contractors, and has hired and promoted many minorities and women to key positions within the firm.

John L. Tishman is a founding member of the Regional Alliance for Small Contractors (RASC) and served as the organization’s second Chairman from 1995 to 1997. Today, Mr. Tishman’s son, Tishman Construction Chairman Daniel R. Tishman, continues his father’s principles of diversity in business and in our society. As the company moves forthrightly into a new era, it identifies and nurtures small firms for participation in New York’s and New Jersey’s most high-profile building projects through various methods and organizations, most significantly RASC.

Jay Badame, President and COO of Tishman and AECOM’s construction services practice in New York, New Jersey and Pennsylvania, is currently serving as the RASC Board Chairman.

Receiving various awards throughout her career, Flora Ramos, Tishman’s Director of Community Relations, was honored by RASC with the “Arthur Pearlfisch Trailblazer of the Year Award” in 2007. In January of 2013, she was also honored by the Women’s Transportation Seminar of Greater New York. Overseeing corporate compliance at One World Trade Center, she performs outreach and field coordination with MWBEs and veteran contractors to facilitate participation and meet all necessary contract requirements within specified time and budget parameters. She is an active participant in the Port Authority of New York & New Jersey’s Mentor/Protégé Program; an initiative that facilitates training, instruction and support activities, and also matches protégé firms with well-established construction companies that share business and construction expertise. Additionally, Ms. Ramos launched a MWBE basic pilot program for contractors to learn from experts in the industry, working with Tishman’s procurement group to seek bidding opportunities for participants. The program will run again in the spring of 2013 and interested contractors should contact Flora Ramos at (212) 748-1001 or flora.ramos@aecom.com.

Become a Prequalified Tishman Vendor
Tishman Construction has several subcontractor opportunities. Subcontractors must complete Tishman’s online prequalification form for inclusion on future bid lists. Please send an e-mail request to trackersupport@tishman.com or contact Hector Rodriguez at hector.rodriguez@aecom.com.

“Our first job with Con Edison helped double the size of my company.”

Twenty-eight years ago Marcia Melendez-Brown owned a small florist shop in Brooklyn. But in 1992 she became a vendor in the Con Edison Supplier Diversity Program. Today, FlowerWorks is a full-fledged landscape construction company with clients in all five boroughs.

Since their very first job—at Con Edison facilities on Staten Island and in Brooklyn—FlowerWorks has flourished, growing business opportunities as successfully as they grow trees and shrubs.

Find out if your business is ready to thrive with us. Visit ConEd.com/supplierdiversity or call 212-460-3076.
DASNY provides financing and construction services to public and private universities, not-for-profit healthcare facilities and other institutions which serve the public good. As a matter of policy, the Authority pursues a program of providing opportunities for minorities and women. Although all units assist in carrying out this policy, primary responsibility rests with the Opportunity Programs Group.

The Opportunity Programs Group is engaged in a number of activities designed to maximize participation of Minority, Women and Small Business Enterprises. Such activities include:

- Identifying and registering Minority, Women and Small Business Enterprises;
- Notifying registered M/W/SBE’s of all relevant contracting/procurement opportunities;
- Establishing strategically located Plan Rooms where potential M/W/SBE prime contractors or subcontractors may view plans and specifications, at no cost;
- Establishing M/WBE subcontracting goals for non-exempt Construction, Professional Service and Commodity prime contracts
- Providing M/WBE referral lists to potential or existing prime contractors and consultants;
- Providing an online Plan Purchase Holders and Interested M/WBE list;
- Monitoring Contractor and Consultant compliance with approved M/WBE Utilization Plans.

Mr. Michael M. Clay, Director of the Opportunity Programs Group, plans and directs activities of the unit and is responsible for administration and compliance with applicable rules, regulations and board policy. Mr. Clay has an office located in Albany and New York City. His telephone number in Albany is: (518) 257-3464 and in New York City (212) 273-5146.

To participate in the programs, a completed Minority, Women and Small Business Registration Application must be on file with the Opportunity Programs Group. To obtain a registration application contact Mr. Charles J. Croseky at (212) 273-5115 and a set will be sent to you promptly.

an MBE Company
Lend Lease (US) Construction LMB Inc.

Established in 1979, Lend Lease (US) Construction LMB Inc. has long been regarded as one of the premier providers of construction services in the New York metropolitan area. Located in the heart of Manhattan, the firm’s New York office maintains a diversified portfolio when it comes to both service offerings (consulting, preconstruction, construction management, program/project management, design/build and general contracting) and market sector experience (residential, mixed-use, interiors, government, cultural, preservation, hospitality, senior living, office, sports / entertainment, healthcare, higher education / campus services, commercial and transportation).

Undertaking projects of all sizes, scopes and complexity levels with the same commitment, enthusiasm and attention to detail, the office has managed more than 1,600 projects representing more than $40 billion of local area construction since its inception.

The New York office utilizes a partnership-based project management approach that fosters collaborative work environments through the integration of entire project teams. This approach is made possible by the expertise of the office’s 400+ construction professionals and their dedication to working within transparent teams to ensure cost and schedule certainty while upholding the highest standards of safety, sustainability and quality. They have direct access to the most robust and progressive processes, technology platforms and operational support available in today’s construction marketplace.

As one of the top four contractors in New York for the past several years – ENR New York (2004 – 2011), the office also offers metropolitan area clients in depth knowledge of government / regulatory agencies; significant negotiating and buying power; established relationships with local contracting communities and material and labor suppliers; and access to minority, women and disadvantaged business enterprises.

Lend Lease (US) Construction LMB Inc. is committed to the principle of diversity within its programs, project contracting and activities. The SDMT will continue to assist the M/W/SBE contracting community and provide them with the necessary tools to develop and grow. All M/W/SBE firms interested in doing business with Lend Lease (US) Construction LMB Inc. are encouraged to contact Anthony Miller, Manager, Supplier Diversity Management at 212.592.6700 and/or via email at anthony.miller@lendlease.com.

NEW YORK CITY HOUSING AUTHORITY

The New York City Housing Authority (NYCHA) provides affordable housing for low- and moderate-income New Yorkers across the five boroughs. Plan NYCHA is a roadmap to ensure public housing for future generations by preserving aging housing stock through timely maintenance and modernization and enhancing resident quality of life.

NYCHA is committed to ensuring Minority-owned, Women-owned, and Small Business Enterprises (MWSBEs) are afforded an equal opportunity to participate in all areas of the procurement process. We are the largest public housing authority in America serving over 400,000 residents in 178,895 apartments across 334 developments. In addition to living facilities, NYCHA also oversees a network of over 400 community centers, senior centers, and health and day care centers. All of which provide procurement opportunities for capital investments, maintenance and repair backlog, safety and security, and connecting our residents and communities to critical services.

NYCHA’s MWSBE – Office of Business Opportunity invites MWSBE firms to register in our Directory by accessing the registration form on the MWSBE page of our website. Competitive pricing, responsiveness and responsibility are key when identifying new suppliers. We continuously seek to identify qualified firms to serve our residents and preserve public housing. MWSBE suppliers registered with us receive the following benefits:

- Emailed notifications of bid notices and pre-bid meetings
- Invitations to NYCHA procurement events
- Notification of other MWSBE procurement events

NYCHA continuously seeks contractors, firms, and vendors in the following areas:

| CONSTRUCTION CONTRACTING AND ARCHITECTURE & ENGINEERING CONSULTING SERVICES | Capital and substantial renovation construction projects – brick work, building system upgrades, elevator maintenance, waste management and electrical service, boiler and heating plant replacement; playground upgrades, fencing, and new construction. |
| MAINTENANCE & REPAIR, LANDSCAPING, PAINTING | Apartment and public space painting, floor tiles installations, landscaping, roof tank cleaning, intercom maintenance, and various repairs - doors, boilers, light fixtures, roof fans, sewer rodding, and additional building and mechanical repairs. |
| GOODS AND MATERIALS | Office supplies, appliances and parts, electrical and plumbing parts, machinery (e.g., floor polishers), playground equipment, lawn mowers, fencing, janitorial supplies, tools, kitchen cabinetry, automotive parts, garbage bags, uniforms, doors, elevator parts, safety supplies and community center supplies. |
| INFORMATION TECHNOLOGY | IT related goods and services. Consultants for applications development, systems support services, hardware maintenance, cabling installations, computer training. |
| GENERAL SERVICES | Various services inclusive of: printing, graphics, couriers, financials, audits, workers’ compensation, property and life insurance, staffing/HR, training, building maintenance, security, legal, equipment rental, and other services as needed. |
| RESIDENT SERVICES | Consultants for job training, apprenticeships, and placement, sports - uniforms and referees, education, gardening, performing arts, snacks and meals, specialized services for youth, seniors and other targeted populations, contracted community-based services. |

The School Construction Authority (SCA) was established in December 1988 to build new public schools and manage the design, construction and renovation of capital projects in New York City's more than 1,200 public school buildings. The SCA also selects and acquires sites for new schools, leases buildings for schools, and supervises conversion of administrative space for classroom use.

**Goods and services procured most by SCA:**
- General Contracting/Subcontracting opportunities for SCA certified M/W/LBE firms
- Professional Consultant Services
- Contract opportunities for SCA certified M/W/LBE firms in the Mentor and Graduate Mentor Program
- Maintenance & Repair Services
- Lead Testing & Abatement
- Seek Contractors in the following fields Electrical, Rough Carpentry - Finished Carpentry, Masonry, Waterproofing, Plumbing, HVAC

The Right Connections

The New York Power Authority has done more than half-a-billion dollars in business with minority- and women-owned enterprises. We recognize that diversity is the key to our strength, which is why we value our connection to hundreds of MWBEs throughout the state. We’re seeking new ideas and innovations that will help move New York toward a clean energy future. If your company specializes in sustainability, energy efficiency or renewable technologies, we may have a relationship worth exploring.

To connect with us visit www.nypa.gov/sdp/default.htm

Reaching the century mark isn’t easy – you have to be quality-driven, client-focused, and have a vision for the future. At 100 years, STV is looking ahead. As an employee-owned firm, our planners, architects, engineers and construction managers have a stake in the business, and are committed to quality performance. We provide personal attention and timely solutions, with an eye toward sustainability. And with more than 35 offices, we are a local firm with national resources. When it comes to getting your project delivered right, choose the firm that has the drive and vision to be the best.

Turner was founded in New York in 1902 and our first project was a reinforced concrete cooper shop for the manufacturer J.B. King & Company. Two years later, Turner built 50 concrete staircases for the New York City subway system. The following year, Turner completed the 180,000 square foot Robert Gair Building, which was the largest reinforced concrete building in the United States at that time. Over the next 100 years, Turner contributed to the construction of many landmark projects in New York City, including the United Nations Secretariat, Madison Square Garden, Lincoln Center and Yankee Stadium.

**Building the Future of New York**
As Turner’s flagship office, New York has a professional staff of more than 800 employees and completes more than $2 billion in annual construction volume. For more than 100 years, Turner has contributed to the construction of many landmark projects in New York City including the United Nations Secretariat, Madison Square Garden, Lincoln Center and Yankee Stadium.

**Interiors**
The 120 members of the Turner Interiors group in New York specialize in office fit-outs for commercial clients and Fortune 500 companies, working in logistically challenging, occupied spaces against complex and fast-paced project schedules.

**Sustainability**
We are committed to sustainability with a staff that includes more than 300 LEED Accredited Professionals; and we are proud of our LEED and green projects which include two Platinum and nine Gold certified buildings.

**Building Information Modeling**
We invested in the development and use of Virtual Design and Construction tools and have applied Building Information Modeling on approximately $7.4 billion dollars worth of work.
ACB Architects PLLC offers a wide variety of professional architectural, interior space planning and design services for City, State and Federal Governments as well as Educational Facilities, Medical Facilities, Corporations, Residences, Airports/Airlines and the Transportation industry in all phases from Design through Construction Administration. COMPANY STATEMENT
Cara Construction Management, Inc. ("CARA CM") was established March 10, 2004. The firm is committed to providing prompt, efficient and quality services critical to the success of any type of construction project: industrial, commercial, residential and educational facilities such as elementary, middle and high schools, colleges, hospitals and health facilities. The firm's founder, Celeste A. Ramirez, is guided by the following three principles: professionalism, commitment and efficiency. Over the years, CARA CM has delivered on this promise, and continues to provide unique and diverse services to its clients.

CARA CM continuously meets the needs and requirements of our clients, particularly in the area of NYC DOB services. Our technical staff includes Filing Representatives formerly referred to as "Expediters" and project managers with 40+ years of field and administrative experience. Our team works closely with government and regulatory agencies to deliver the best possible services, and to find the most effective solutions to complex projects. Our track record demonstrates our ability to deliver services on time, efficiently and at competitive and affordable rates.

Our experience in providing multi-services for new construction, modernization and renovation projects includes monitoring, supervision and on-site management. We work closely with owners, agents/representatives, architects and engineers, contractors and other stakeholders to move projects forward.
COMPANY STATEMENT

Center Sheet Metal was incorporated in the State of New York in 1977. We operate from a 45,000 square foot facility at 1371 East Bay Avenue in the Hunts Point section of the Bronx. Our plant is equipped with the latest in fabrication technology as well as a totally computerized drafting department with BIM capability.

We are a New York City SMACNA contractor, performing work using the best practices of our industry. We are a certified WBE contractor with a bonding capacity of $50 million and are capable of completing any size/type of project.

CRC Associates, Inc. was founded in 2006, with a vision of providing quality construction management services to clients across NY & NJ. Following our vision and considering tremendous competitive pressure in the areas of technology changes, deregulation and point to point expertise for our clients, we built our company into a highly diversified construction firm by bringing together a group of talented people who possess both the technical and administrative skills to successfully perform work of the highest industry standards.

We perform Electrical, Security and Communication installations for public sector institutions and offer technology expertise to companies, as well as emerging corporations of all sizes. At CRC, we manage our successful growth by recruiting team members with a single focus — providing complete end-to-end solutions for the entire life cycle of each project while, at the same time, remaining flexible to meet the changing needs of any organization.

We specialize in design build security and technology projects. We offer the complete solution including engineering, designing and construction of projects. Most of our competitors provide only installation work.

CRC is proud of its long term and continuing relationships with its clients. CRC is a privately owned company with the principal involved on an ongoing basis. If you have any questions about our organization, please feel free to contact us at 908-561-8246.

Stalco Construction, Inc. is a full-service, turn-key general contracting and construction management firm active on Long Island and in the Greater New York area. Established in 1992, the firm builds commercial and institutional facilities for office, retail, educational, healthcare, governmental, cultural, and religious clients. New York Construction magazine has ranked Stalco as one of the 100 largest construction firms in the NY/NJ/CT Tri-state area. The firm is a national member of the U.S. Green Building Council and many of its employees are active in USGBC’s New York City and Long Island chapters. Stalco employs LEED-certified project managers and has implemented a company-wide recycling program for waste and demolition debris. Its headquarters building incorporates numerous Green features.
Founded in 2002, The McCloud Group, LLC (TMG) is a construction management firm, specializing in the building and restoration of educational facilities, residential facilities, financial institutions, transportation facilities, detention centers and municipal facilities for both new construction and restoration work. As construction consultants, TMG serves as the owner’s representative and advocate during all phases of a project and under all delivery methods.

Attorneys at Law – New York and New Jersey
Legal Services in Construction Law including
Litigation & M/WBE/DBE Regulations
Delta Air Lines is New York’s fastest growing global carrier, providing service to more destinations from LaGuardia and JFK airports combined than any other airline. Delta serves more than 100 worldwide destinations from New York, has nearly 8,000 New York-based employees and its operations represent more than $13 billion in economic impact in the state each year. It is the only airline to serve five continents out of New York.

To further develop our presence in New York, Delta partnered with the Port Authority on a $1.4B project to renovate and expand JFK Terminal 4 in two phases. The new facility debuted in May 2013 and created nine new international gates. The state-of-the-art facility streamlines connections and significantly improves the customer experience at our JFK hub. Delta operates a major hub at JFK with 183 daily flights to 92 cities worldwide including 44 international destinations.

Delta also is investing $160 million at LaGuardia Airport as part of the largest expansion of that iconic gateway in more than 40 years. The airline opened a new Sky Club in Terminal C in addition to building a connector bridge to Terminal D, allowing customers to move freely between the two terminals. Delta now operates 267 peak day departures serving 67 destinations from LaGuardia.

Delta retained the services of the Regional Alliance for Small Contractors to administer the Minority and Women Owned Business Enterprise Participation and Labor Force Program, ensuring that MWBE firms fully participate in the project and to ensure diversity within the work force.

**Minority Women Business Goals:**

- 12% Minority Business Enterprise Participation
- 5% Woman Business Enterprise Participation

**Work Force Participation Goals:**

- 30% for skilled minority tradesmen and 6.9% for skilled females
- 40% for minority laborers and 6.9% for female laborers

For information on the Delta Air Lines Minority and Women Owned Business Enterprise and Construction Labor Force Programs contact:

NJ TRANSIT is dedicated to serving New Jersey’s diverse population. Through its Office of Business Development, NJ TRANSIT expands the opportunities available for Disadvantaged, Small, Women and Minority-Business Enterprises (DBEs, SBEs, WBEs and MBEs) to obtain contracts for the development of goods and services as defined by the regulations of the United States Department of Transportation and the New Jersey Commerce and Economic Growth Commission.

SERVICES:

Some of the services provided by the Office of Business Development include:

- Disadvantaged Business Enterprise Certification (973.491.7530);
- Compliance oversight on contracts with all applicable government regulations and NJ TRANSIT policy provisions (973.491.8941);
- Supports DBE business growth through outreach programs on technical and financial assistance, networking, marketing and “how to” workshops on procurement and contracting procedures (973.491.7530);
- Provides opportunities for public input on NJ TRANSIT’s contracting process from diverse sections of the population through open floor town hall meetings;
- Continually monitors, evaluates and implements improvements in programs and services

NJ TRANSIT CONTRACT HOTLINE
1.877.658.5160

NJ TRANSIT’s toll free Contract Hotline is a 24-hour voice-mail system that provides information on upcoming projects, pre-bid meetings and contract and procurement activities.
Dear Business Owner:

Thank you for doing business in New Jersey.

We want to help small business like yours flourish. To make it easier, the New Jersey Department of Transportation, NJ TRANSIT and the Port Authority of NY/NJ entered into reciprocal agreements to create the New Jersey Unified Certification Program (NJUCP). Certified vendors may attend pre-bid conferences on upcoming federal contracts.

If your firm meets the criteria, it will be automatically entered in the DBE directory for all USDOT grantees in New Jersey to utilize in locating certified DBE firms. The directory offers prime contractors a quick, up-to-date reference of qualified small businesses in the New Jersey area. It is available online at www.njucp.net.

Please note that the NJUCP cannot process a new application for DBE certification from a firm that has its principal place of business in another state unless the firm has already been DBE-certified in that state.

Certification for small business enterprises (SBE’s) must be obtained from the New Jersey Commerce and Economic Growth Commission (888-239-1288).

We hope the above information is beneficial to you. As stated above you can access the UCP application by visiting the UCP website at www.njucp.net.

THE NEW JERSEY UNIFIED CERTIFICATION PROGRAM

DBE Certifying Agencies:

NEW JERSEY DEPARTMENT OF TRANSPORTATION
NJ TRANSIT
THE PORT AUTHORITY OF NY & NJ
THE PORT AUTHORITY OF NY & NJ

OFFICE OF BUSINESS DIVERSITY AND CIVIL RIGHTS

WHO WE ARE AND HOW YOU CAN BENEFIT

The Port Authority of New York and New Jersey’s Office of Business Diversity and Civil Rights facilitates business opportunities for minority and women-owned enterprises (M/WBEs), small business enterprises (SBEs) and disadvantage business enterprises (DBEs) and promotes work force diversity in the Port Authority and its tenants’ business activities.

We assist you by providing the following:

- **SBE Set-Asides** - Small business set-asides are used to increase prime contracting opportunities for certified small business enterprises in the region. Contracts in this category are bid from lists of certified SBEs qualifying in a specific work category.

- **M/WBE Set-Asides** - Designed to increase prime contracting opportunities for regional M/WBEs, these contracts are bid from lists of certified minority and women-owned businesses qualifying in a specific work category.

- **Vendor Price Preferences** - On selected publicly bid contracts, certified M/WBEs may receive a price preference of up to ten percent; certified SBEs - a price preference of up to five percent.

- **Subcontracting Opportunities** - Contracts for construction and other services include provisions for good faith subcontracting to certified M/WBEs and DBEs where appropriate. Good faith M/WBE and DBE sub-contracting goals are set on a contract-by-contract basis.

PROMOTING YOUR SERVICES

The Port Authority of New York and New Jersey’s Office of Business Diversity and Civil Rights is committed to assisting certified M/W/S/DBEs in marketing their products and services to The Port Authority and its tenants. As such, we maintain an online database of certified M/W/S/DBEs that can be accessed by Port Authority staff, prime contractors, tenants and other businesses in the region who are looking to work with qualified firms.
