MISSION STATEMENT

Assisting the growth of small, minority and women-owned business enterprises (S/M/WBEs) in construction and related industries is the primary objective of the Regional Alliance for Small Contractors. As a premier construction industry partnership headquartered in New York and led by major construction firms and public agencies, the Regional Alliance was created in 1990 to:

► Promote the representation of minorities and women in the ownership, management and work force of construction and related businesses.

► Promote and support the development of small, minority and women-owned construction and related businesses.

► Promote policies and practices that improve the competitive position of small, minority and women-owned businesses.

► Promote, develop and implement building capacity programs for S/M/WBEs to expand their contracting abilities.

► Provide marketing and networking opportunities for S/M/WBEs with private and public sector firms.

THE REGIONAL ALLIANCE FOR SMALL CONTRACTORS
Last year the Regional Alliance for Small Contractors (RASC) celebrated our 25th anniversary. We are grateful to the public sector organizations, especially the Port Authority of New York and New Jersey and New Jersey Transit, who have sponsored our training programs which enable us to help expand the capacity of small, minority and women-owned businesses and improve their performance.

We are also very grateful to the private sector organizations that have contracted RASC to provide contract compliance and EEO services to assist them to maximize S/M/W/LBE and diverse workforce participation on their multibillion dollar capital projects. These clients have included Delta Air Lines, JetBlue Airways, Continental Airlines (now United) and SL Green. We also want to express our sincere appreciation to our Chairman and President & COO, Tishman Construction Corp. of NY, NJ & PA (an AECOM company), Jay Badame, who has been instrumental in helping to forge ties and access to the private sector.

The general outlook for the minority and women business community access to contract opportunities is extremely positive. New York Governor Cuomo has set a 30% aspirational M/WBE goal for applicable New York State and affiliated public agencies projects. NYC Mayor DeBlasio’s administration has launched several new initiatives in its revitalized M/WBE procurement program. They include an ambitious goal to award at least 30% of City contracts to M/WBEs by 2021, a City agencies M/WBE discretionary spending increase from $20,000 to $150,000, and a Contractor Financing Loan Program for M/WBEs with City contracts which provides an opportunity to receive loans up to $500,000 at 3% interest. Also, the regional construction industry continues to boom with a Dodge Analytics report there will be $113 billion in new projects in 2018.

RASC training programs continue to enjoy strong demand. Our extensive OSHA safety training is particularly relevant with the new NYC Council Local Law 196 which mandates construction safety plans for a multitude of projects. In response, the NYC Department of Buildings has launched an enforceable OSHA training program for workers to be fully phased in by 2019. Meanwhile, our Construction Management Certificate Program continues to enjoy heavy demand by firm owners and their staff in New York and New Jersey.

Last, but not least, we would like to thank all of our Charter Members for their consistent support over the years.

Yours truly,

Earle J. Walker

Executive Director
Regional Alliance for Small Contractors
Tishman Construction, an AECOM Company

Equal Opportunity Employer

Corporate Overview

Founded in 1898, Tishman Construction, an AECOM company, is one of the world’s leading builders, responsible for the construction and renovation of more than 500 million square feet of space. Tishman and AECOM bring together nearly 100,000 designers, engineers, construction managers and other experts around the world. This powerful combination of innovative and award-winning expertise advances the ideas, projects and strategies of clients in more than 150 countries.

Tishman’s roster of projects includes some of New York City’s most high-profile buildings: World Trade Center Towers 1, 3, 4 and 7, the World Trade Center Transportation Hub and the Vehicle Security Center; the Bank of America Tower at One Bryant Park; Carnegie Hall; W Downtown NY Hotel & Residences; Condé Nast Headquarters at 4 Times Square; Reuters Americas Headquarters at 3 Times Square; The InterContinental New York Times Square; and The Westin New York at Times Square.

Tishman is not only dedicated to improving the region’s built environment, but also to advancing the presence of M/W/S/L/DBEs, veterans and veteran disabled contractors, vendors and suppliers in the metropolitan construction industry. The company has been a pioneer in initiating programs that facilitate industry participation, and its employees have worked tirelessly to foster solidarity within the construction community, while simultaneously increasing minority and women presence in the workforce.

Diversity Efforts

It is Tishman’s standard operating practice to promote M/W/S/L/DBEs, veterans and veteran disabled contractors in both its public and private sector projects. Through a variety of aggressive Affirmative Action programs designed to encourage minority and women involvement, Tishman has successfully fostered joint ventures with numerous M/W/S/L/DBEs, veterans and veteran disabled contractors, and has hired and promoted minorities and women to key positions within the company.

The recently deceased, John L. Tishman was a founding member of the Regional Alliance for Small Contractors (RASC) and served as the organization’s second Chairman from 1995 to 1997. Today, Mr. Tishman’s son, Tishman Construction Chairman Daniel R. Tishman, continues his father’s principles of diversity in business and in society. As the company moves forthrightly into a new era, it identifies and nurtures small firms for participation in New York and New Jersey’s most high-profile building projects through various methods and organizations, most significantly RASC.

Jay Badame, President and Chief Operating Officer of Tishman in New York, New Jersey and Pennsylvania, is currently serving as the RASC Board Chairman.

Flora Ramos, Tishman’s Director of Community Relations, has received various awards throughout her career; including RASC’s “Arthur Pearthree Trailblazer of the Year Award” in 2007. More recently, she was honored by the New York City Hispanic Chamber of Commerce in March 2016. New York Women’s Chamber of Commerce in 2014 and by the Women’s Transportation Seminar of Greater New York in 2013. In addition to overseeing corporate compliance, she also performs outreach and field coordination with M/W/S/L/DBEs, veterans and veteran disabled contractors to facilitate participation and meet all necessary contract requirements within specified time and budget parameters along with leading the LEED and sustainability efforts for the completed 1 WTC project. She is an active participant in the Port Authority of New York & New Jersey’s Mentor/Protégé Program, an initiative that facilitates training, instruction and support activities, and also matches protégé firms with well-established construction companies that share business and construction expertise. Furthermore, Ms. Ramos launched the MWEI Basic Program for small business contractors to learn from experts in the industry, while working with Tishman’s procurement group to seek bidding opportunities for participants. The program graduated its second class in 2014 and will commence again in the near future. Interested contractors should contact Flora Ramos at (212) 708 6787 or send an email to flora.ramos@aecom.com to register.

Become a Prequalified Tishman Vendor

Tishman Construction has several subcontractor opportunities. Subcontractors must complete Tishman’s online prequalification form for inclusion on future bid lists. Please send an e-mail along with your W-9 to TishmanPrequalifications@aecom.com requesting to become prequalified. Questions can be directed to Kristen.Johnson@aecom.com.

The Hugh L. Carey Battery Park City Authority (BPCA) is a Class A New York State public benefit corporation.

**WHAT WE DO**

The BPCA’s mission is to plan, create, coordinate and maintain a balanced community of commercial, residential, retail, and park space within its designated 92-acre site on Manhattan’s lower west side known as Battery Park City. Parcels of land are leased to developers who build in accordance with the Authority’s guidelines, which also incorporate green provisions mandating state of the art environmental specifications to maximize energy efficiency and minimize water usage. With more than five million square feet of environmentally sustainable construction on its 92-acre site, Battery Park City is the largest “green” neighborhood in the world.

**DOOR OPENERS: INSIGHT ON NAVIGATING BPCA**

BPCA endorses a competitive public bidding process and, as such, solicits bids from contractors for work throughout Battery Park City. Requests for Proposals (RFPs) are posted in the New York State Contract Reporter and the New York City Record as well as the BPCA’s website: www.bpca.ny.gov.

Pursuant to Article 15-A of the Executive Law and regulations adopted thereunder, BPCA has established goals for the participation of certified minority and women-owned business enterprises (MBEs) in the performance of services under contract with BPCA. The language of Article 15A applies in all of BPCA’s leases.

These goals have been prescribed as percentages of the overall proposal/contract dollar amount. BPCA’s goals are placed on construction contracts totaling over $500,000, and procurement contracts over $25,000. MBE-certified firms are found in the Directory of Certified MBEs offered by Empire State Development.

BPCA is a major sponsor of the Competitive Edge Conference. Held annually, the conference provides an excellent opportunity for MBEs to network with City, State and Private Sector firms. For more information, visit The Competitive Edge’s website: (www.competitivedgesite.org)

Corporate Overview Briefing Sheet

Consolidated Edison, Inc. is one of the nation’s largest investor-owned energy-delivery companies, with approximately $13 billion in annual revenues and $47 billion in assets. The company provides a wide range of energy-related products and services to its customers through the following subsidiaries: Consolidated Edison Company of New York, Inc., a regulated utility providing electric, gas and steam service in New York City and Westchester County, New York; Orange and Rockland Utilities, Inc., a regulated utility serving customers in an approximately 1,300-square-mile-area in southeastern New York State and northern New Jersey; Con Edison Clean Energy Businesses, Inc., which through its subsidiaries develops, owns, and operates renewable and energy infrastructure projects and provides energy-related products and services to wholesale and retail customers; and Con Edison Transmission, Inc., which invests in electric and natural gas transmission projects.

For additional information, visit our site at, www.coned.com, or find us on Facebook.
Founded in 1944, DASNY – the Dormitory Authority of the State of New York – is New York State’s capital project development authority. It finances and constructs sustainable and resilient science, health and education institutions that help New York thrive. It is one of the largest issuers of low cost, tax-exempt bonds in the nation and is a major public builder.

DASNY’s Opportunity Programs Group (OPG) helps Minority, Women and Small Business Enterprises (M/W/SBE) and Service-Disabled Veteran-Owned Businesses (SDVOB) compete for state construction and finance opportunities, as well as monitors DASNY contractors and professional service providers so that they create diversity and employ qualified women and minority group members. DASNY has statewide construction-related participation goals of 18% MBE and 12% WBE, and a 6% participation goal for SDVOBs. These goals are attained through both prime contracting and subcontracting opportunities.

OPG has six programs to maximize Minority and Women Business Enterprise (MWBE) and SDVOB (where applicable) participation:
1. Construction Contracting Program
2. City University of New York (CUNY) Set-Aside Program
3. Equal Employment Opportunity Program
4. Commodity Compliance Program
5. Construction-Related Professional Services Program
6. Financial and Professional Services Program

Additional services include:
- Identifying and registering Minority, Women and Small Business Enterprises;
- Notifying registered M/W/SBEs of all relevant contracting/procurement opportunities;
- Establishing strategically located Plan Rooms where potential M/W/SBE prime contractors or subcontractors may view plans and specifications, at no cost;
- Establishing M/WBE subcontracting goals for non-exempt Construction, Professional Service, and Commodity prime contracts
- Providing one-on-one Technical Assistance for M/WBEs, at no cost;
- Providing M/WBE referral lists to potential or existing prime contractors and consultants;
- Providing an online Plan Purchase Holders and Interested M/WBE list;
- Monitoring Contractor and Consultant compliance with approved M/WBE Utilization Plans.

Mr. Michael M. Clay is the Senior Director, Resource Acquisition - Opportunity Programs Group for Construction, Construction-Related Professional Services, Financial Professional Services & Commodities. Mr. Clay is based in the Albany Office, and divides his time between Albany and New York City. His telephone numbers are (518) 257-3464 (Albany) and (212) 273-5146 (New York City Office).

To maximize your participation in the programs outlined above, a completed Minority, Women, Small Business Enterprise Registration Application should be on file with the Opportunity Programs Group for Construction Commodities. To obtain a registration application, contact Mr. Charles Croskey at (212) 273-5115 and a set of documents will be sent to you promptly.

NYPAG Builds Powerful Relationships With Diverse Suppliers

The New York Power Authority (NYPAG), the largest state electric utility in the nation, values working with diverse suppliers.

Since 1983, NYPAG’s Supplier Diversity Program has done more than $1 billion in business with diverse suppliers. We continually look for purchasing opportunities that will build relationships with companies providing new ideas and perspectives in:

- Sustainability
- Energy Efficiency
- Renewable Technologies
- Digitization
- Lean Construction

History
Turner Construction Company, incorporated in the State of New York, was established in 1902 by Henry C. Turner who continued his active direction of the company as President and Chairman of the Board until his retirement in 1946. Turner Construction Company is a subsidiary of The Turner Corporation and is currently under the direction of Peter J. Davoren, President and CEO. With a staff of 5,800 personnel Turner has shown remarkable growth over the past 115 years.

From the beginning, Turner has had an undeniable influence on the construction industry by pioneering the practical use of what was then the newly developed reinforced concrete design concept. Turner demonstrated the capabilities of this construction method by building the station stairs for the New York City Subway system in 1904 and the Robert Gair Building in New York in 1905, which was the largest reinforced concrete building in the United States at the time.

Turner New York has a professional staff of more than 1,200 employees and completes more than $2.3 billion in annual construction volume. For more than 115 years, Turner has contributed to the construction of many landmark projects in New York City including the United Nations Secretariat, Madison Square Garden, Lincoln Center and Yankee Stadium.

For over 25 years, Kanta Electric has been a market leader in electrical contracting, providing state-of-the-art power and electric solutions that meet the needs of New York's leading public private sector clients. Founded by Prakash Kapadia (PK), the firm is a New York State and City certified Minority Business Enterprise (MBE), Disadvantaged Business Enterprise (DBE), and a proud member of Local 3 IBEW. Having been named to Crain's Fast 50, the annual list of New York City's 50 Fasted Growing Businesses, Kanta continues to deliver each mission critical project with the highest level of attention to detail, safety and quality.
McKissack is the oldest minority-owned professional design and construction firm in the United States. A family-owned business for more than 100 years, McKissack has been a leader in planning, design, and construction of more than 6,000 projects. McKissack provides a wide range of services to a variety of government agencies and authorities, municipalities, private institutions, industries, designers and developers, and attributes its longevity and success to the talented, service-oriented professionals that comprise the McKissack organization.

McKissack generates $50 million in revenue annually and are currently working on major civic and transportation projects throughout New York and the northeast region, including the LaGuardia Airport Central Terminal Building Project, James A. Farley Post Office Building—New Penn Station, Philadelphia International Airport Construction Management Services, SEPTA On-call General Engineering Consulting, Pacific Park (formerly Atlantic Yards) Development Project and the Coney Island Hospital Redevelopment in Brooklyn. McKissack has also served as the MTA Independent Engineering Consultant overseeing the $33.2 billion MTA...
COMPANY STATEMENT

MBI Group is a full-service MBE Certified General Contracting and Construction management firm that specializes in Mission Critical, Building Core and Shell, and Interior Projects. In 2017, MBI Group celebrated its 30th anniversary and remains dedicated to providing clients with innovative, cost-effective solutions to their construction challenges while maintaining the highest standard of service. MBI Group is continually recognized as one of the “Top Contractors in NY” by ENR and named as one of the largest minority business enterprises by Crain’s. MBI Group has completed over 1,500 projects to date for many of New York’s industry leaders. Their resume of high-profile clients come from a broad spectrum of industries such as healthcare, corporate, retail, residential, hospitality, and education and new construction.

Neelam Construction Corporation was established in 1987 working in the Tri-State area. To continue building and developing a long term diversified, safety conscious construction company, that provides a quality product with pride, improves and challenges its employees, and contributes to their communities.

We believe strongly in both our motto and our mission statement which is the reason for their prominent display in our brochure. Our team concept of management is successful because our employees understand that their contributions are fully recognized and rewarded.

Our concern for their safety and having the best resources available for the professional completion of our projects is paramount in management’s oversight of the Company’s progress. We believe in safety. Our Human Resource Department plays a major role in obtaining the best qualified employees, training them and looking out for their safety by constant evaluation of our field operations and job sites. Neelam Construction is an equal opportunity employer.
COMPANY STATEMENT

The New York Building Congress is a broad-based membership association committed to promoting the growth and success of the construction industry in New York City and its environs. The New York Building Congress provides a unique forum to advance an industry-wide agenda focusing on economic and infrastructure investment, job creation and professional exchange. These goals require the dedicated involvement and cooperation of the contractors, architects, engineers, unions, real estate managers, developers and owners who comprise the building community.

Attorneys at Law – New York and New Jersey
Legal Services in Construction Law including
Litigation & M/WBE/DBE Regulations
Delta is New York’s largest carrier with more than 500 peak-day departures to more than 130 destinations worldwide from its hubs at LaGuardia Airport and John F. Kennedy International Airport – including more destinations from New York State than any other airline. Delta has invested more than $2 billion in New York airport infrastructure over the past seven years and is currently building a new, $3.9 billion, 37-gate facility at LaGuardia. Delta and its more than 10,000 New York-based employees are part of the fabric of the New York community, acting as the official airline of not only Madison Square Garden, but also the New York Yankees, New York Mets, Chelsea Piers and the Whitney Museum of American Art. The airline also partners with more than 40 community organizations. In 2018, Delta paid out more than $110 million in profit sharing to its New York employees and contributed 1 percent of its net income from the previous year to key charitable organizations, including organizations in New York.

Delta Air Lines retained the services of the Regional Alliance For Small Contractors to administer the Minority and Women Business Enterprise Participation and Labor Force Program, for the LaGuardia New Terminal C project ensuring that MWBE firms fully participate in the project and to ensure diversity within the workforce.
NJ TRANSIT is dedicated to serving New Jersey’s diverse population. Through its Office of Business Development, NJ TRANSIT expands the opportunities available for Disadvantaged and Small Business Enterprises (DBEs and SBES) to obtain contracts for the development of goods and services defined by the regulations of the United States Department of Transportation and the New Jersey Commerce and Economic Growth Commission.

SERVICES:

Some of the services provided by the Office of Business Development include:

- Disadvantaged Business Enterprise Certification;
- Compliance oversight on contracts with all applicable regulations and NJ TRANSIT policy provisions;
- Supports DBE business growth through outreach programs on technical and financial assistance, networking, marketing and “how to” workshops on procurement and contracting procedures;
- Provides opportunities for public input on NJ TRANSIT’s contracting process from diverse sections of the population through open floor town hall meetings;
- Continually monitors, evaluates and implements improvements in the programs and services

For additional information please contact NJ TRANSIT Office of Business Development at (973) 491-7593.
Dear Business Owner:

Thank you for doing business in New Jersey,

We want to help small business like yours flourish. To make it easier, the New Jersey Department of Transportation, NJ TRANSIT and the Port Authority of NY/NJ entered into reciprocal agreements to create the New Jersey Unified Certification Program (NJUCP). Certified vendors may attend pre-bid conferences on upcoming federal contacts.

If your firm meets the criteria, it will automatically enter in the DBE director for all USDOT grantees in New Jersey to utilize in locating certified DBE firms. The directory offers prime contractors a quick, up-to-date reference of qualified small businesses in the New Jersey area. It is available online at www.njucp.dbesystem.com

Please note that the NJUCP cannot process a new application for DBE certification from a firm that has its principal place of business in another state unless the firm has already been DBE-certified in that state.

Certification for small business enterprises (SBE’s) must be obtained from the New Jersey Commerce and Economic Growth Commission (888-239-1288).

We hope the above information is beneficial to you. As stated above you can access the UCP application by visiting the UCP website at www.njucp.dbesystem.com.

THE NEW JERSEY UNIFIED CERTIFICATION PROGRAM

DBE Certifying Agencies:

NEW JERSEY DEPARTMENT OF TRANSPORTATION
NJ TRANSIT
THE PORT AUTHORITY OF NY/NJ
OFFICE OF DIVERSITY AND INCLUSION

Who We Are and How You Can Benefit

The Port Authority of New York and New Jersey’s Office of Diversity and Inclusion facilitates business opportunities for minority, woman-owned, small and disadvantaged business enterprises (MWSDBEs), and promotes work force diversity in the Port Authority’s and its tenants’ business activities.

As an MWSBE company, you may qualify for the following programs:

- **SBE Set-aside Program** - The Port Authority reserves certain contracts for construction, supplies, equipment, and operations services to be solicited from Port Authority-certified SBEs. This enables your business to compete for significant contracts in a limited, competitive environment.

- **Vendor Price Preference Program** - On selected bid contracts for commodity and operations services, a price preference may be offered to MWSBEs. On those bids, your business may be awarded the purchase order even though your price exceeds the lowest bid by up to 10 percent for MWBEs, or 5 percent for SBEs.

- **Subcontracting Program** - Many Port Authority contracts provide for good-faith subcontracting opportunities to Port Authority-certified MWDBEs. As a certified MWDBE registered in our database, your firm’s name will be made available to other contractors or vendors who, to meet MWDBE subcontracting goals, may invite you to participate with them as subcontractor on Port Authority contracts.

Promoting Your Services

The Office of Diversity and Inclusion is committed to assisting certified MWSDBEs in marketing their products and services to the Port Authority and its tenants. As such, we maintain an online database of certified MWSDBEs that can be accessed by Port Authority staff, prime contractors, tenants and other businesses in the region who are looking to work with qualified firms.

**General Information**

2 Montgomery Street, 2nd floor
Jersey City, NJ 07302
Certification Hotline: (212) 435-7388
Facsimile: (201) 396-3554

Applications for all certifications may be completed on our website – [www.panynjd.com](http://www.panynjd.com)
