MISSION STATEMENT

Assisting the growth of small, minority and women-owned business enterprises (S/M/WBEs) in construction and related industries is the primary objective of the Regional Alliance for Small Contractors. As a premier construction industry partnership headquartered in New York and led by major construction firms and public agencies, the Regional Alliance was created in 1990 to:

- Promote the representation of minorities and women in the ownership, management and work force of construction and related businesses.
- Promote and support the development of small, minority and women-owned construction and related businesses.
- Promote policies and practices that improve the competitive position of small, minority and women-owned businesses.
- Promote, develop and implement building capacity programs for S/M/WBEs to expand their contracting abilities.
- Provide marketing and networking opportunities for S/M/WBEs with private and public sector firms.
The Regional Alliance for Small Contractors (RASC) celebrates its 25th Annual Awards Luncheon this year. This is a momentous milestone for our unique partnership of leading public agencies and major construction corporations dedicated to improving the competitiveness of small, minority, and women contractors in the region. RASC is well positioned to pursue its mission going forward with the strong support of public agencies like the Port Authority of New York and New Jersey (PANY&NJ) and NJ TRANSIT (NJT), as well as, the leadership of corporations like Tishman Construction Corp. (an AECOM Company). We have also enjoyed steadfast support from our Board of Directors and Membership throughout these years for which we are very grateful.

RASC signature programs continue to enjoy great demand from the contractor community. Managing Growth®, our award winning business training program, enables M/WBE firms to develop and enhance their managerial skills and contract performance. The Construction Management Certificate Program is very popular and hosted by Pace University and New Jersey Institute of Technology and sponsored by PANY&NJ and NJT. OSHA 10 and 30 Hour certificate classes are regularly available during the winter/spring/fall semesters. RASC computer classes feature Intuit QuickBooks and Excel help to bolster contractor office operations. Our Managing Growth® curricula are periodically reviewed and adapted to reflect the requirements of a competitive construction industry.

In recent years, RASC’s highly successful Affirmative Action/EEO Contract Compliance and Community Outreach Program has been utilized by Delta Air Lines and JetBlue to increase M/WBE and local business utilization, as well as, minority and women labor force participation on their multi-billion dollar capital construction projects. RASC has helped enable contractors to acquire several hundred million dollars of contract awards and helped boost minority and women labor force numbers to new highs.

Our training and support services are especially useful in the present regional construction boom as M/WBEs are presented with unprecedented contract opportunities. Major construction projects abound like the $2.4 billion overhaul of Newark Liberty International Airport’s Terminal A, the $450 million LaGuardia Airport Air Train, the $1.5 billion Jacob Javits Convention Center and the $4 billion LaGuardia Airport Central Terminal project. Public agencies and major construction firms alike are aggressively seeking qualified M/WBEs at outreach events and on their websites. To meet the challenge, contractors must have their certifications and statement of qualifications up-to-date and in order. They should also assiduously follow-up and cultivate M/WBE outreach staff, project teams, and purchasing staff.

Success is when preparation meets opportunity. We wish you all success!

Yours truly,

Earle J. Walker
The Hugh L. Carey Battery Park City Authority (BPCA) is a Class A New York State public benefit corporation.

WHAT WE DO
The BPCA’s mission is to plan, create, coordinate and maintain a balanced community of commercial, residential, retail, and park space within its designated 92-acre site on Manhattan’s lower west side known as Battery Park City. Parcels of land are leased to developers who build in accordance with the Authority’s guidelines, which also incorporate green provisions mandating state of the art environmental specifications to maximize energy efficiency and minimize water usage. With more than five million square feet of environmentally sustainable construction on its 92-acre site, Battery Park City is the largest “green” neighborhood in the world.

DOOR OPENERS: INSIGHT ON NAVIGATING BPCA
BPCA endorses a competitive public bidding process and, as such, solicits bids from contractors for work throughout Battery Park City. Requests for Proposals (RFPs) are posted in the New York State Contract Reporter and the New York City Record as well as the BPCA’s website: www.b pca.ny.gov.

Pursuant to Article 15-A of the Executive Law and regulations adopted thereunder, BPCA has established goals for the participation of certified minority and women-owned business enterprises (M/WBEs) in the performance of services under contract with BPCA. The language of Article 15-A appears in all of BPCA’s leases.

These goals have been prescribed as percentages of the overall proposal/contract dollar amount. BPCA’s goals are placed on construction contracts totaling over $100,000, and procurement contracts over $25,000. M/WBE-certified firms are found in the Directory of Certified M/WBEs offered by Empire State Development.

BPCA is a major sponsor of The Competitive Edge Conference. Held annually, the conference provides an excellent opportunity for M/WBEs to network with City, State and Private Sector firms. For more information, visit The Competitive Edges website: (www.competitiveedgesite.org)

Corporate Overview

AECOM Tishman is one of the world’s leading builders, responsible for the construction and renovation of more than 500 million square feet of space. AECOM Tishman and AECOM bring together nearly 95,000 designers, engineers, construction managers and other experts from around the world. This powerful combination of innovative and award-winning expertise advances the ideas, projects and strategies of clients in more than 150 countries.

AECOM Tishman’s roster of projects includes some of New York City’s most high-profile buildings: World Trade Center Towers 1, 3, 4 and 7; the World Trade Center Transportation Hub and the Vehicle Security Center; the Bank of America Tower at One Bryant Park; Carnegie Hall; W Downtown NY Hotel & Residences; Condé Nast Headquarters at 4 Times Square; Reuters Americas Headquarters at 3 Times Square; The InterContinental New York Times Square; The Westin New York at Times Square; Hudson Yards, and One Vanderbilt.

AECOM Tishman is not only dedicated to improving the region’s built environment, but also to advancing the presence of M/W/Ind/DisbEES, veterans and veteran disabled contractors, vendors and suppliers in the metropolitan construction industry. The company has been a pioneer in initiating programs that facilitate industry participation, and its employees have worked tirelessly to foster solidarity within the construction community, while simultaneously increasing minority and women presence in the workforce.

Diversity Efforts

It is AECOM Tishman’s standard operating practice to promote M/W/Ind/DisbEES, veterans and veteran disabled contractors in both public and private sector projects. Through a variety of aggressive Affirmative Action programs designed to encourage minority and women involvement, AECOM Tishman has successfully fostered joint ventures with numerous M/W/Ind/DisbEES, veterans and veteran disabled contractors, and has hired and promoted minorities and women to key positions within the company.

John L. Tishman was a founding member of the Regional Alliance for Small Contractors (RASC) and served as the organization’s second Chairman from 1995 to 1997. Today, Mr. Tishman’s son, Vice Chairman, AECOM, Daniel R. Tishman, continues his father’s principles of diversity in business and in society. As the company moves forward into a new era, it identifies and nurtures small firms for participation in New York and New Jersey’s most high-profile building projects through various methods and organizations, most significantly RASC.

Jay Badame, President and Chief Operating Officer, Building Construction, AECOM, is currently serving as the RASC Board Chairman.

Flora Ramos, AECOM Tishman’s Director of Community Relations, has received various awards throughout her career, including the City & State Corporate Responsibility Award, 2010, New York Women’s Chamber of Commerce, 2011, Women of Color Chamber of Commerce, 2011, Women’s Chamber of Commerce, 2014, WTS of Greater NY, 2013. RASC’s “Arthur Pearlstein Trailblazer of the Year Award” in 2007. In addition to overseeing corporate compliance, she also performs outreach and field coordination with M/W/Ind/DisbEES, veterans and veteran disabled contractors to facilitate participation and meet all necessary contract requirements within specified time and budget parameters along with leading the LEED and sustainability efforts for the completed 1 WTC project. She is an active participant in the Port Authority of New York & New Jersey’s Mentor/Protégé Program, an initiative that facilitates training, instruction and support activities, and also matches protégé firms with well-established construction companies that share business and construction expertise. Furthermore, Ms. Ramos launched the MWBE Basic Program for small business contractors to learn from experts in the industry, while working with AECOM Tishman’s procurement group to seek bidding opportunities for participants. The program graduated its second class in 2014 and will restart its sessions in the near future. Interested contractors should contact Flora Ramos at (212) 708 6787 or send an email to flora.ramos@aecom.com to register.

Become a Prequalified Tishman Vendor

Tishman Construction has several subcontractor opportunities. Subcontractors must complete Tishman’s online prequalification form for inclusion on future bid lists. Please send an e-mail along with your W-3 to Tishman.Prequalifications@aecom.com requesting to become prequalified. Questions can be directed to Kristen.Johnson@aecom.com or Catrina.Kosilek@aeocom.com.

About Consolided Edison of New York, Inc:

Con Edison is a subsidiary of Consolidated Edison, Inc. [NYSE: ED], one of the nation’s largest investor-owned energy companies, with approximately $13 billion in annual revenues and $37 billion in assets. The utility provides electric, gas and steam service to more than three million customers in New York City and Westchester County, New York. For additional financial, operations and customer service information, visit Con Edison on the Web at www.conEd.com, or the Con Edison green site, www.coned.com/thepowerofgreen, or on Facebook at Power of Green.
The Dormitory Authority of the State of New York (DASNY) finances and builds the education and health care institutions that anchor New York’s communities and keep the state competitive. DASNY is among the largest issuers of low-interest, tax-exempt bonds in the nation and one of New York’s biggest builders. DASNY is New York State’s developer.

DASNY’s Opportunity Programs Group (OPG) helps Minority, Women and Small Business Enterprises (M/W/SBE) and Service Disabled Veteran-Owned Businesses (SDVOB) compete for state construction and finance opportunities, as well as monitors DASNY contractors and professional service providers so that they create diversity and employ qualified women and minority group members. DASNY has statewide construction-related participation goals of 18% MBE and 12% WBE, and a 3% participation goal for SDVOBs. These goals are attained through both prime contracting and subcontracting opportunities.

OPG has six programs to maximize Minority and Women Business Enterprise (M/WBE) and SDVOB (where applicable) participation:
1. Construction Contracting Program
2. City University of New York (CUNY) Set-Aside Program
3. Equal Employment Opportunity Program
4. Commodity Compliance Program
5. Construction-Related Professional Services Program
6. Financial and Professional Services Program

Additional services include:
- Identifying and registering Minority, Women and Small Business Enterprises;
- Notifying registered M/W/SBEs of all relevant contracting/procurement opportunities;
- Establishing strategically located Plan Rooms where potential M/W/SBE prime contractors or subcontractors may view plans and specifications, at no cost;
- Establishing M/WBE subcontracting goals for non-exempt Construction, Professional Service, and Commodity prime contracts
- Providing one-on-one Technical Assistance for M/WBEs, at no cost;
- Providing M/WBE referral lists to potential or existing prime contractors and consultants;
- Providing an online Plan Purchase Holders and Interested M/WBE list;
- Monitoring Contractor and Consultant compliance with approved M/WBE Utilization Plans.

Mr. Michael M. Clay is the Senior Director, Resource Acquisition - Opportunity Programs Group for Construction, Construction-Related Professional Services, Financial Professional Services & Commodities. Mr. Clay is based in the Albany Office, and divides his time between Albany and New York City. His telephone numbers are (518) 257-3464 (Albany) and (212) 273-5146 (New York City Office).

To maximize your participation in the programs outlined above, a completed Minority, Women, Small Business Enterprise Registration Application should be on file with the Opportunity Programs Group for Construction Commodities. To obtain a registration application, contact Mr. Charles Croskey at (212) 273-5116 and a set of documents will be sent to you promptly.

FIRM BACKGROUND

History
Turner Construction Company, incorporated in the State of New York, was established in 1902 by Henry C. Turner who continued his active direction of the company as President and Chairman of the Board until his retirement in 1946. Turner Construction Company is a subsidiary of The Turner Corporation and is currently under the direction of Peter J. Davoren, President and CEO. With a staff of 5,800 personnel Turner has shown remarkable growth over the past 114 years.

From the beginning, Turner has had an undeniable influence on the construction industry by pioneering the practical use of what was then the newly developed reinforced concrete design concept. Turner demonstrated the capabilities of this construction method by building the station stairs for the New York City Subway system in 1904 and the Robert Gair Building in New York in 1905, which was the largest reinforced concrete building in the United States at the time.

Turner New York has a professional staff of more than 980 employees and completes more than $2.3 billion in annual construction volume. For more than 113 years, Turner has contributed to the construction of many landmark projects in New York City including the United Nations Secretariat, Madison Square Garden, Lincoln Center and Yankee Stadium.
COMPANY STATEMENT

Ashnu is a mid-size company located in New York, comprising of General Contractors and providing Construction Management services in NY and NJ. COMPANY STATEMENT

Attri Enterprises, Inc. performs general construction work for various government agencies. All contracts are given our full attention no matter how small or large. The owner and President of the firm, Shri Attri, started this business in 1986. Since that time, he has built a reputation for excellent workmanship, teamwork, timely completion of contracts, and the ability to communicate well with people he comes into contact with on a daily basis.
COMPANY STATEMENT

BCA Watson Rice LLP, “WatsonRice®”, is an independently owned and operated CPA firm founded in 1971. We are a full-service, minority owned CPA firm with 40+ years of operating history specializing in not-for-profit, public sector, and employee benefits plans. We have offices in New York, New Jersey and Washington, D. C. and have independently owned and operated affiliates in Florida and California. BCA Watson Rice LLP is an independently owned member of the RSM Alliance. RSM Alliance is the fifth-largest accounting firm in the United States. The RSM Alliance is a premier affiliation of independent accounting and consulting firms. The member firms maintain their name, autonomy and independence and are responsible for their own client fee arrangements, delivery of services and maintenance of client relationships. This affiliation gives WatsonRice access to training, resources, experience, and a professional knowledge base that is unmatched while still allowing us to provide the level of service and attention that only a locally owned, independent accounting firm can offer.

Deborah Bradley Construction & Management Services, Inc. is owned and operated by Deborah Bradley, CPA, MBA. Founded in 1993, we are privileged to serve institutional, residential and commercial managers, owners and developers as general contractors in both the private and public sectors throughout NYC. A certified WBE, SBE and DBE, the company specializes in interior renovations and upgrades, exterior restoration and repair, site work and construction management services.
D-Star Waterproofers, Inc. was founded in 1998 by owner and President Antonio W. Ramirez. Annual gross receipts have grown by 5000% since then. We are the only certified New York based company to use a specialized spray-on application used by most municipalities. A union shop, D-Star Waterproofers, Inc. provides quality work on time and within budget.

MBI Group is a full-service MBE Certified General Contracting and Construction management firm that specializes in Mission Critical, Building Core and Shell, and Interior Projects. Currently celebrating their 30th anniversary as of 2017, the MBI Group remain dedicated to providing clients with innovative, cost-effective solutions to their construction challenges while maintaining the highest standard of service. MBI Group is continually recognized as one of the “Top Contractors in NY” by ENR and named as one of the largest minority business enterprises by Crain’s. MBI Group has completed over 1,500 projects to date for many of New York’s industry leaders. Their resume of high-profile clients come from a broad spectrum of industries such as healthcare, corporate, retail, residential, hospitality, and education.
Neelam Construction Corporation was established in 1987 working in the Tri-State area. To continue building and developing a long term diversified, safety conscious construction company, that provides a quality product with pride, improves and challenges its employees, and contributes to their communities.

We believe strongly in both our motto and our mission statement which is the reason for their prominent display in our brochure. Our team concept of management is successful because our employees understand that their contributions are fully recognized and rewarded.

Our concern for their safety and having the best resources available for the professional completion of our projects is paramount in management’s oversight of the Company’s progress. We believe in safety. Our Human Resource Department plays a major role in obtaining the best qualified employees, training them and looking out for their safety by constant evaluation of our field operations and job sites. Neelam Construction is an equal opportunity employer.
The New York Building Congress is a broad-based membership association committed to promoting the growth and success of the construction industry in New York City and its environs. The New York Building Congress provides a unique forum to advance an industry-wide agenda focusing on economic and infrastructure investment, job creation and professional exchange. These goals require the dedicated involvement and cooperation of the contractors, architects, engineers, unions, real estate managers, developers and owners who comprise the building community.

Attorneys at Law – New York and New Jersey
Legal Services in Construction Law including Litigation & M/WBE/DBE Regulations
Delta Air Lines is New York State’s largest carrier with more than 500 peak-day departures to more than 130 destinations worldwide from its hubs at New York’s LaGuardia Airport and John F. Kennedy International Airport and service to more destinations from New York State than any other airline. Delta’s New York operations support more than $13 billion annually in state economic impact.

Delta’s Terminal 4 at JFK, a $1.2 billion, state-of-the-art international gateway, opened in May 2013; a $175 million second-phase extension of 11 new gates opened in January 2015. Delta operates more than 230 peak-day departures to 83 destinations from JFK, including service to 40 international destinations.

Delta operates more than 270 peak-day departures to more than 60 destinations. Over the last 5 years, Delta has invested more than $200 million to update Terminals C and D. Last year, Delta committed $3.9 billion to redevelop both terminals over the next 8 years.

Delta and its over 10,000 New York-based employees are part of the fabric of the New York community, supporting Habitat for Humanity, Food Bank for New York, Covenant House, and serving as the official carrier of the Yankees, Mets, and Madison Square Garden.

Delta retained the services of the Regional Alliance for Small Contractors to administer the Minority and Women Owned Business Enterprise Participation and Labor Force Program, ensuring that MWBE firms fully participate in the project and to ensure diversity within the workforce.
NJ TRANSIT is dedicated to serving New Jersey’s diverse population. Through its Office of Business Development, NJ TRANSIT expands the opportunities available for Disadvantaged, Small, Women and Minority-Business Enterprises (DBEs, SBEs, WBEs and MBES) to obtain contracts for the development of goods and services defined by the regulations of the United States Department of Transportation and the New Jersey Commerce and Economic Growth Commission.

SERVICES:

Some of the services provided by the Office of Business Development include:

- Disadvantaged Business Enterprise Certification (973-491-7530);
- Compliance oversight on contracts with all applicable regulations and NJ TRANSIT policy provisions (973-491-8941);
- Supports DBE business growth through outreach programs on technical and financial assistance, networking, marketing and “how to” workshops on procurement and contracting procedures (973-491-7530);
- Provides opportunities for public input on NJ TRANSIT’s contracting process from diverse sections of the population through open floor town hall meetings;
- Continually monitors, evaluates and implements improvements in the programs and services
Dear Business Owner:

Thank you for doing business in New Jersey,

We want to help small business like yours flourish. To make it easier, the New Jersey Department of Transportation, NJ TRANSIT and the Port Authority of NY/NJ entered into reciprocal agreements to create the New Jersey Unified Certification Program (NJUCP). Certified vendors may attend pre-bid conferences on upcoming federal contacts.

If your firm meets the criteria, it will automatically enter in the DBE directory for all USDOT grantees in New Jersey to utilize in locating certified DBE firms. The directory offers prime contractors a quick, up-to-date reference of qualified small businesses in the New Jersey area. It is available online at www.njucp.dbesystem.com.

Please note that the NJUCP cannot process a new application for DBE certification from a firm that has its principal place of business in another state unless the firm has already been DBE-certified in that state.

Certification for small business enterprises (SBE's) must be obtained from the New Jersey Commerce and Economic Growth Commission (888-239-1288).

We hope the above information is beneficial to you. As stated above you can access the UCP application by visiting the UCP website at www.njucp.dbesystem.com.

THE NEW JERSEY UNIFIED CERTIFICATION PROGRAM

DBE Certifying Agencies:

NEW JERSEY DEPARTMENT OF TRANSPORTATION
NJ TRANSIT CORPORATION
THE PORT AUTHORITY OF NY/NJ
WHO WE ARE AND HOW YOU CAN BENEFIT

The Port Authority of New York and New Jersey's Office of Business Diversity and Civil Rights facilitates business opportunities for minority and women-owned business enterprises (MWBEs), small business enterprises (SBEs) and disadvantaged business enterprises (DBEs) and promotes workforce diversity in the Port Authority and its tenants' business activities.

We assist you by providing the following:

- **SBE Set-Asides** - Small business set-asides are used to increase prime contracting opportunities for certified small business enterprises in the region. Contracts in this category are bid from lists of certified SBEs qualifying in a specific work category.

- **MWBE Set-Asides** - Designed to increase prime contracting opportunities for regional MWBEs, these contracts are bid from lists of certified minority and women-owned businesses qualifying in a specific work category.

- **Vendor Price Preferences** - On selected publicly bid contracts, certified MWBEs may receive a price preference of up to ten percent; certified SBEs - a price preference of up to five percent.

- **Subcontracting Opportunities** - Contracts for construction and other services include provisions for good faith subcontracting to certified MWBEs and DBEs where appropriate. Good faith MWBE and DBE subcontracting goals are set on a contract-by-contract basis.

PROMOTING YOUR SERVICES

The Office of Business Diversity and Civil Rights is committed to assisting certified MWSDBEs in marketing their products and services to the Port Authority and its tenants. As such, we maintain an online database of certified MWSDBEs that can be accessed by Port Authority staff, prime contractors, tenants and other businesses in the region who are looking to work with qualified firms.
